

The Maumee Valley Heritage Corridor

This non-profit organization is committed to the implementation of a comprehensive resource plan for the valley, a critical and logical step toward its future protection. Such a plan would help to educate citizens about the natural, economic, recreational, cultural and tourism resources that link the cities of Toledo and Fort Wayne and the numerous communities in between.

You can help protect, enhance, and interpret the natural, cultural, recreational, agricultural, economic and historical resources of the Maumee Valley through supporting the Maumee Valley Heritage Corridor project.

Please enroll me as a member of the Maumee Valley Heritage Corridor, Inc. Members will receive a subscription to the newsletter, all mailings, invitations to meetings and special events.
